Spreadsheet

CSV URL  602

☒ Use first row of spreadsheet for column names

TIP You can use the format ##Param1## (e.g. ##Param1##) to pass data from the page into the URL. [Learn more...](#)

Connection

To access secured data, you will need to provide connection information to the data source.

Connection Information <None> [Edit Connection](#)

☒ Use this connection information for all users  
☐ User must re-enter connection information

Portlet Parameters

Parameters are passed to the portlet from the page when the portlet is displayed. These parameters can be mapped to page level parameters by editing the Page Properties.

Parameter Name	Default Value	Customizable	Customize Page Label	Customize Page Description
Param1	<input type="text"/>	<input type="checkbox"/>	<input type="text" value="Param1"/>	Description for P1
Param2	<input type="text"/>	<input type="checkbox"/>	<input type="text" value="Param2"/>	Description for P1
Param3	<input type="text"/>	<input type="checkbox"/>	<input type="text" value="Param3"/>	Description for P1

XML

XML URL  622

Optionally enter an XSL filter to transform the data  
This is useful when the data is not in <ROWSET>/<ROW> format.

XSL Filter URL  624

Optionally enter an XML Schema to describe the data  
This is useful when your XML data doesn't have data for all fields, or to override what is defined in the XML data.

XML Schema URL  626

**TIP** You can use the format `##ParamName##` (ex: `##Param1##`) to pass data from the page into the URLs. [Learn more...](#)

**Connection**  
To access secured data, you will need to provide connection information to the data source.

Connection Information <None> [Edit Connection](#)

**Filter**

Use this page to filter and order the data that appears in your portlet.

**Conditions**

Specify the conditions that the data must meet in order to appear in your portlet. Click the plus sign to specify conditions for additional columns.

☒ Match all ☐ Match any

Column	Operator	Value	Actions
Department_No	Equals	30	+ ✕
Vacation_Days	Greater than	10	+ ✕

**Order**

Determine how the data should be ordered.

Column	Order
Order by	<None> Ascending
Then by	<None> Ascending
Then by	<None> Ascending

**Limit**

If desired, limit the number of rows that appear in the portlet.

☒ Do not limit results ☐ Limit to 10 results

Title:

Header Text:

☐ Show Header Text

Footer Text:

☐ Show Footer Text

TIP You can use the format #PARAM# (ex: #PARAM#) to pass data from the page into the text, and #COLUMNNAME# (ex: #DEPTNO#) to pass the column values into the text. [Learn more.](#)

**Layout Style**

Select a layout for the portlet data.

802 { ☒ Tabular ☐ Chart ☐ News ☐ Bullet ☐ Form

Data View		Customer	Rep	Amount	Yr
Sample Data:	Column1	Column2	Column3		
Robert Broyard	President - Manufacturing		100000		
Robert Rodriguez	President - Sales		100000		
Edward Shields	Chief Financial Officer		100000		
Jan Francisco Stewart	Graphic Artist		36000		
Lisa Williams	Graphic Artist		36000		
Sandra Kyle	Course Developer		34000		
Paulo Yu	Customer Sales Representative		35000		

804

**Caching**

If page level caching is not used, then the page will always have to wait for this portlet to generate if the portlet is not cached. This can adversely effect page performance.
